# RECORDER/SCORER (DESK CONTROL)

Feruary 28, 2018

# WELCOME

- The goal of any competition volunteer or official is to contribute to a fair, safe and positive competitive environment
- The goal of this clinic is to:
  1. Continue to develop a foundation for your skills as a swimming official
  2. Provide you with an enhanced understanding of the rules of the Recorder/Scorer
  3. Develop an understanding for the role and key duties of the Recorder/Scorer

# PREFERRED PREREQUISITES

- A general interest in the sport of swimming
- An interest in the fair conduct of sport
- Practical experience as a timekeeper across a range of competitive levels
- Computer friendly – in this job you will be working with a swimming software application – Hy-tek or Splash

# THE PROFICIENT SWIMMING OFFICIAL

The proficient swimming official is a judge of the competition, not the rules.

- The swimming rules must be followed. The official who has standards that differ from those set down in the rulebook may leave themselves open to having their decisions challenged by coaches and the referee.
- Following the rules puts a stake in the ground that tells everyone concerned with the competition that the decisions will be made in a fair and equitable manner against a known standard.
- The official’s job is to uphold the rules by applying them equitably and communicating their interpretation effectively

# THE PROFICIENT SWIMMING OFFICIAL (cont'd)

- As an official, an individual must operate from a strong base. That base is made up of two factors – one is the authority of the rulebook and the other is the basic philosophy that the officials conduct the competition in accordance with the rules.
- Each time a rule and the purpose of that rule are explained, the rule becomes easier to accept. Rather than hiding behind the statement "It's the rule", an official should explain why there was a violation so the official does not appear to be arbitrary.
- While the rules of swimming are clear, their application may differ slightly based on the level of competition.

# RECORDER/SCORER DUTIES

# OVERVIEW OF THE ROLE OF RECORDER/SCORER

You will use the computerized swimming competition software (Hy-Tek's Meet Manager or Splash) to:

- Record and post results
- Set-up swim-off and official split events
- Score an event
- Know if a record time is set
- Re-seed heats and events (if requested by Referee and/or Meet Manager)

On deck experience, working in the meet office or with the Chief Finish Judge is the best way to learn this position.

# RULES RELATED TO THE ROLE OF RECORDER/SCORER

  - Include electronics reports (Quantum, ARES etc) or manual lane sheets (if applicable),
  - Note changes made by Chief Finish Judge, and
  - Include DQ forms.
- Have Chief Finish Judge check changes are entered correctly
- Have Referee sign and accept results

# SW 2.12.1 IN ACTION

**3. During Finals/Time Finals:**

- Receive and process Chief Finish Judge’s report for each event
- Ensure a list is compiled of the swimmers in their order of finish for each event

- Check the meet package for any special seeding requirements, this will include instructions on how 400 metre events for preliminaries are to be seeded (i.e. top 2 heats circle seeded or top 3 heats circle seeded)
- Only seed the events that need seeding, some may have been pre-seeded.
- Double check the meet program to ensure the seeding was done as expected. If not check the software settings for each Event.

# SEEDING

- Seed times from the entries are used to determine order of swimmers.
- Preliminaries

- If so, then a good understanding of Scratches and Deck Entry rules and procedures, including those stated in the meet package is important.
- For example, it is important to wait until the scratch deadline is over prior to creating Finals start lists.
- Any add on swimmers that have been included should be brought to the attention of the Referee.
